Licensed Auctioneers: Harvey G. Stack, #522763; Norman Stack, #798113.

TERMS OF SALE

1. This is a public auction sale conducted by licensed and bonded auctioneers. The principal licensed auctioneers are Harvey G. Stack, #522763 and Norman Stack, #798113.

2. **Each bidder, by bidding in the sale, agrees that a 10% BUYER'S CHARGE will be added to the "hammer price" or winning bid of each lot as determined by the auctioneer.** This **10% BUYER'S FEE** will be added to the invoice of each successful bidder over and above the actual sum bid or offered. The Buyer's Fee applies regardless of a bidder's affiliation with any group or organization, and is imposed on all bidders. Bidders also agree to pay all Postage and Insurance charges in addition to the sums bid. No lots will be delivered or shown at the auction.

3. STACK'S is not responsible for your errors in bidding. Please bid on the correct lot.

4. All persons seeking to bid must have a catalogue and register to bid. The auctioneer may decline to recognize any bidder who does not have a catalogue and has not registered and been given a paddle number. Any prospective bidder may be required to establish credit references or submit a deposit of 25% of their bids. All new bidders should be prepared to establish credit with the auctioneer prior to registering to bid. By bidding in this sale, even if as an agent, or on behalf of a corporation or for another individual, a bidder personally guarantees prompt payment. STACK'S reserves the right to require payment in full before delivering lots to a successful bidder, and reserves the right to require the principals, and directors of any corporate bidder to execute a guarantee of payment (which, in any event they do by having an agent or employee bid in the sale) prior to allowing a bid to be placed or recognized. Bids are not accepted from minors. By bidding in this sale, the bidder certifies that they are of legal age, are authorized to make the bid that they make, and that the purchase is not a consumer credit transaction. **TITLE REMAINS WITH STACK'S UNTIL PAID FOR IN FULL.** Should purchaser take any action under Title 11 of the United States Code, or under any state insolvency law, buyer agrees to promptly return to STACK'S any lots not paid for. The buyer agrees to keep the lots fully insured until paid for. Risk of loss is on the buyer.

5. The highest bidder as determined in the sole discretion of the auctioneer shall be the buyer. If the auctioneer determines that a dispute has arisen between two or more bidders, the lot may be immediately put up and sold again. Bidders with whom the dispute previously arose shall be without further recourse for any damages whatsoever.

6. IF YOU BID BY MAIL, **MAIL YOUR BID SHEET EARLY.** In general, we start the bidding on each lot at a small advance over the next highest bid, and attempt to purchase the lot for you as reasonably as possible. When identical mail bids are received, preference is given to the first bid received, as determined by the auctioneer. A mail bid will take precedence over an identical floor bid, and a floor bidder must bid higher than the highest mail bid to be awarded any lot. The auctioneer reserves the right to refuse ridiculously low bids which he, in his sole discretion, feels are not made in good faith. The auctioneer reserves the right to open the lot at a reasonable price. The auctioneer shall also have sole discretion to set initial, and subsequent bidding increments, and to accept, or to decline to accept, challenges to those bidding increments. All bids not in whole dollar amounts may be rounded downward by the auctioneer. The auctioneer may open bidding on any lot by placing a bid on behalf of the seller, a mail bidder, STACK'S, or another participant in the sale. The auctioneer may bid further on behalf of the seller up to the amount of the reserve by placing successive or consecutive bids for a lot, or by placing bids in response to other bidders. The auctioneer may bid for his, or its, own account at any auction and may have access to information concerning the lots, and items contained in them, that are not otherwise available to the public. Estimates given are for the general guidance of the bidder and represent the opinion of the auctioneer as to the fair market value of the numismatic item at the time of cataloguing, based on experience and comparable sales, if applicable. The actual price realized may be higher, or lower than the estimate. If a lot is reserved, the reserve may not exceed the maximum estimated price.

7. Auction sales are not approval sales. In the event of non-payment by the buyer, STACK'S reserves any and all rights that it would be entitled to under the Uniform Commercial Code, including buyer's consent to file a financing statement without need of buyer's signature, and to offset any sums due on any future consignment or purchase or goods in possession of Stack's or assigns. Floor bidders are encouraged to carefully examine all lots on which they are interested in bidding prior to the sale. Floor bidders, and anyone actually viewing the lots, agree that except for reasons of non-authenticity, all viewed lots are sold "as is," and NO LOTS PURCHASED BY FLOOR BUYERS or those who have viewed the lots MAY BE RETURNED. All bidders agree to adhere to this rule, including those lots where the floor buyer is acting as agent for another, or those lots sold to mail bidders who have examined the lots. All items offered in this catalogue are guaranteed to be genuine and correctly attributed. Claims to the contrary must be made, in writing, within seven (7) days after receipt of the material.

8. No lot may be returned for any reason whatsoever without the prior written consent of STACK'S, or if it has been removed from its original container. Grading is a subjective description in the opinion of the cataloguer as to the state of preservation, method of strike, and overall appearance of a particular coin or

lot. The term "proof" or "specimen" is used to describe a method of manufacture, and is not a grade or condition or an attribution. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description, and not an attribution. No warranty, whether express or implied, including a warranty of merchantability, is made with respect to such adjectival description, which can and do vary among experts. In most instances, STACK'S utilizes adjectival descriptions for grading, rather than numerical shorthand. An explanation of what STACK'S means by "Uncirculated," "Choice Uncirculated," and "Gem Uncirculated" appears elsewhere in this catalogue and is made a part of these terms and conditions of sale. STACK'S may utilize numerical descriptions, and may include in the auction numismatic items that have been graded or attributed by others, in which case it is so stated. No warranty, or guaranty, whether express or implied, including a warranty of merchantability, is made with respect to such numerical description, or attribution or grade of any third party, which can and does vary among experts. Unless otherwise stated, the lot offered for sale does not include any rights or claim against any third party with respect to such grade or attribution, or any guarantee by any third party.

9. The auctioneer and cataloguer, STACK'S, reserves the right to include its own material in any auction sale. The auctioneer may have direct or indirect interests in these, and other items, and may collect a minimum price in addition to the selling commission. This paragraph shall be deemed a part of the description of all lots contained in the catalogue. The catalogue shall also be deemed a part of any invoice issued by the auctioneer. The auctioneer may make loans or advances to consignors and/or prospective purchasers. The consignor may be permitted to bid on his, her or their own articles and to buy them back at the sale. Any buyer who bids on or purchases their own goods is required to pay for them, in full, as the terms of sale provide for together with the full buyer's commission, without rebate of any kind whatsoever. In accordance with the consignment agreement, settlement will thereafter be made.
10. Bids are so much per LOT. No lots will be broken up unless otherwise stated.
11. The auctioneer generally calls the sale of lots in their numerical sequence. Occasionally, through error, a lot will be put up out of its numerical order, in which case the auctioneer shall solely determine whether or not a hammered lot shall be re-offered, or if it shall be considered as sold. No bidder shall have any claim against the auctioneer, or STACK'S, for improper sequence of offering a lot.
12. Auction sales are strictly for cash and must be paid for promptly in U.S. funds. All bidders personally guarantee prompt payment. Checks are permitted with identification acceptable to STACK'S. On any accounts past due, STACK'S reserves the right to extend credit and impose periodic charges as stated on the invoice or statement. Buyer agrees to pay the reasonable attorneys fees and costs required to collect on such past due account.
13. All lots delivered in New York State are subject to applicable Sales Tax. Buyer agrees to pay any sales tax, and any other applicable taxes that now, or hereafter, are found to be due by virtue of the sale, and to indemnify and hold STACK'S harmless for any sales or other taxes due thereunder, including reasonable attorneys fees and any interest or penalties assessed.
14. As a condition of bidding, bidder agrees that numismatic auction sales are unique in terms of their tradition and industry practices. Each bidder agrees that any claim or controversy arising out of this public auction sale shall be settled exclusively by binding arbitration under the rules of the Professional Numismatists Guild, Inc. ("PNG"). In the event that a dispute arises between STACK'S and a non-member of the PNG, this means that the American Arbitration Association, at New York, N.Y., shall have exclusive jurisdiction over the controversy. By bidding in this sale you agree to be bound by the arbitration provisions of the PNG, as described above. In all cases, the maximum liability of STACK'S for any item sold shall be limited to the official price of record of the item at this sale, without provision for consequential damages, or any other damages of any kind whatsoever, unless the PNG rules provide otherwise.
15. STACK'S warrants good title to the numismatic items sold in this sale. STACK'S agrees to reimburse any purchaser in an amount equal to the successful bid at auction plus any buyer's commission paid in the event that it is determined that the purchaser has not acquired title to the item. STACK'S expressly disclaims any consequential damages, and bidder consents to said disclaimer.
16. The auctioneer reserves the right to postpone the sale by auction for a reasonable period of time as a result of any significant event which, in the sole discretion of the auctioneer, makes it advisable to postpone the event. No bidder or prospective bidder or purchaser or prospective purchaser shall have recourse as a result of any postponement. In any event, no person may bid without registering, and ALL REGISTERED BIDDERS (including mail bidders and agents) by registering or bidding AGREE TO ALL OF THE ABOVE TERMS AND CONDITIONS OF SALE.

U. S. COLONIAL COINS

SILVER COINAGE OF MASSACHUSETTS

Lot No. 411

411 **1652 Oak Tree Shilling.** Noe 1. An extraordinary specimen, fully round (although faintly oval). The tree **fully** struck, all of the letters on the planchet. The reverse slightly off-center affecting only the tops of N DOM. More than half of the outer beaded border is visible. **Mostly with mint lustre** and delicate iridescent toning. Without question, one of the finest extant. **About Uncirculated or perhaps Mint State.** *(SEE COLOR PLATE)*

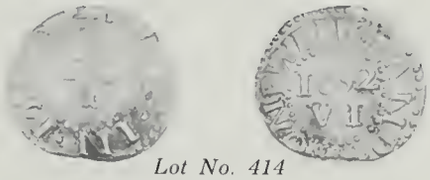
Lot No. 412

412 **1662 Oak Tree Twopence.** Noe 30. The only coins of the series to depart from the 1652 date. A handsome little coin with full lettering on both sides, the reverse with virtually a full beaded inner and outer border. Golden and light gray toning. **Very Fine,** nearly Extremely Fine.

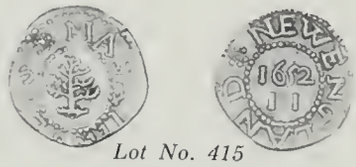
EXCEPTIONAL PINE TREE SHILLING

Lot No. 413

413 **1652 Pine Tree Shilling.** Noe 1. Large size. This example virtually defies description as it really is **as struck.** Beautifully centered with the border just touching a couple of letters. Full mint lustre enhanced by pale gray and golden iridescent toning. A needle-sharp strike on both sides. This extraordinary coin will no doubt realize a bid into five figures. **About Uncirculated.** *(SEE COLOR PLATE)*



Lot No. 414



Lot No. 415

414 **1652 Pine Tree Sixpence.** Noe 33. As brought out in our Oechsner sale, the engraver had difficulty in cutting dies for the sixpence and the coiner trouble in aligning the dies. Sharply struck on an oval planchet with the tops of the inscription missing, **but,** more detail than most. The reverse centered, with the tops of ANO missing. All in all, a superior example with light russet and iridescent toning. **Extremely Fine** and choice.

415 **1652 Pine Tree Threepence.** Noe 36. As is always the case, off-center to six o'clock, affecting half of the lower letters. The reverse well centered. Golden and iridescent toning. **Extremely Fine.**

COLONIALS AND STATE COINAGE

Lot No. 416

416 **MARYLAND. Lord Baltimore Shilling.** Silver. The central obverse weak, the lettering strong and full as is the denticulation. The reverse overall stronger than the obverse, but weakness at the tops of some letters. Russet and golden sea-green iridescent toning. **A great rarity. Fine,** nearly Very Fine. *(SEE COLOR PLATE)*

417 **American Plantation. (1688) ½₄ Part Real. Restrike** ca. 1828. The surfaces a trifle porous, mint lustre in the devices. **Extremely Fine.**

418 **Rosa Americana. 1723 Twopence.** With period after REX. The obverse is porous but the reverse is quite nice. Steel toning. **Extremely Fine.**

419 — **1722 Penny.** One rosette in the reverse legend. Variety with U's in all of the legends. Light surface porosity as is most always the case. **Extremely Fine.**

420 — **1722 Halfpenny.** Uncrowned rose. The usual variety with DEI GRATIA REX. **Extremely Fine.**

421 **Hibernia. 1723 Halfpenny.** Eleven harpstrings. Light brown with traces of lustre in the letters. **About Uncirculated.**

422 — **1723 Farthing.** Eleven harpstrings. A small reverse planchet split. Natural light brown, deeply impressed. **Extremely Fine.**

423 **Voce Populi. 1760 Halfpenny.** Cross after VOCE. Very Fine, porous; **Auctori Plebis.** 1787 Token. Very Fine, but rippled due to some dents. **2** pieces.

Lot No. 424

424 **1766 Pitt Halfpenny.** Betts 519. Copper. Light, natural chocolate. Sharply and evenly struck. All but one of the portholes visible. A tiny reverse edge nick. **Extremely Fine.**

432 **Connecticut. 1785 Mailed bust right.** Miller-3.3-F.3. Mounded in the obverse center resulting in weakness on the reverse. Light brown with a few planchet flakes. **Very Fine.**

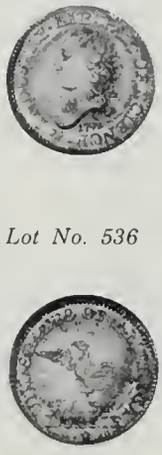
U. S. HALF DIMES

EXTREMELY RARE 1792 HALF DISME

(Enlarged)



Lot No. 536

(Enlarged)

536 **1792 Half Disme. Gem Uncirculated. An exceptional specimen with full frosty mint lustre.** The obverse is needle-sharp in strike with every hairstrand and letter fully struck. One tiny mark on the truncation. The reverse is also sharply struck but for some planchet adjustment marks on the eagle. Superb golden russet toning with concentric circles of silvery iridescence. Certainly on a par with the Jimmy Hayes specimen we sold in our 50th Anniversary Sale, 1985.

The 1792 Half Disme is generally conceded to be the first issue of the U.S. Mint in Philadelphia. It was designed and engraved by Robert Birch and, as numismatic tradition would have it, was minted from the silver from George Washington's own personal silverware. Over the years it has also become part of numismatic lore that the figure of Liberty is actually a portrait of Martha Washington. Only 1,500-2,000 specimens were struck and most surviving pieces are well worn; G-VG is typical and Uncirculated specimens are very rare. *(SEE COLOR PLATE)*

The dies for this piece were engraved in or around June of 1792, in the carriage-house "mint" of John Harper (where they were also struck, since the U.S. Mint did not have any coining presses until the Fall of the year). The die cutter was probably William Russell Birch from England, and the obverse design was derived directly from his earlier whit metal "GWPt" version of the Birch Cent. The initial striking took place by July 13 since Thomas Jefferson on that date recorded the receipt of 1,500 specimens.

The Half Dismes of 1792 were not Patterns, but an actual circulating coinage, released largely to Jefferson though Washington himself undoubtedly distributed some to friends. Most were probably released through one or another of the major banks, and the extent of their circulation is indicated by the extensive degree of wear on most specimens. It is suspected that a further striking of the coins - after the July 13th delivery of 1,500 pieces - may have taken place in the U.S. Mint itself in the Fall of 1792; this second striking probably amounted to fewer than 500 pieces.

All the 1792 Half Dismes were struck on "medal axis," i.e. with the reverse rotated 180 degrees relative to one of our present coins. This was the standard die alignment in England for the silver coins of George III from 1787 until after 1800. This die alignment explains the persistent weakness of the "A" in HALF and the "M" in DISME: those two letters were directly opposite the high points of the shoulder and the bust when struck.

It is still one of the sharpest struck and best preserved specimens in existence.

Lot No. 1095

1095 **1865/4** From NASCA's Allan Lee Scott sale, April 1980, lot 1282, described as: "**1865/4, Lustrous original toned Uncirculated-63.** *The Red Book says on this piece: 'Some varieties appear to show traces of a 4 under the 5 in the date.'* We can now state definitely that this is so: this variety is a true overdate, 5/4, and was struck into the die from the logotype used on the 1864-L Indian Head Cent. On the 1864-L, the 1 and 8 are multiple punched downwards, with a broken-topped 8 under the new one and a small 6 with a large 4. This 2c die shows the same identical logo repolished (the third layer under the 8 on the 1c has been reduced to a hairline across the top of the broken 8 now, the 6 has been repunched with a larger 6), and a 5 has been punched in over the 4, the upright clearly visible within the top of the 5. The present specimen is very clear in all aspects of the repunching, is lustrous with 90% mint red and a couple of insignificant freckles." Clearly there is a vertical which could only be a 4. **Rare.**

1506 **1873 Open 3.** Extremely Fine, a couple of nicks on Liberty. Rose gold with green overtones, the obverse mostly frosty and the reverse completely so.

Lot No. 1516

Lot No. 1517

1516 **1876 Brilliant Uncirculated.** A dark toning line in an arc from the 9 through the head to the rim left of the date. There are some violet-toned copper spots as made, due to imperfect mixing of the metals from which the planchet was made. Light yellow gold color, cartwheel lustre.

Note: Though it has not received the attention it deserves, the 1876 Philadelphia Mint Double Eagle is a one-year transitional issue. The obverse is from the same hub as the 1875, using the old-style narrow denticles with a noticeable space between them. The reverse has the broad, continuous denticles employed on the issues from 1877 to the end of the design. There are also modifications to the eagle's head, the curled tendrils at the top corners of the shield, and the shape and curvature of the wings. The motto and adjacent stars have been repositioned and use thinner elements. The central devices on the reverse were adapted to the TWENTY DOLLARS reverse of 1877, but, of course, the legend is different.

1517 **1876'CC'** Choice About Uncirculated, light yellow gold toning with frosty pink at the central reverse. Fields somewhat reflective, especially the reverse, and showing a good deal of "flash" as a result.

An Extraordinary Collection of U. S. Commemorative Half Dollars

The following offering of Commemorative Half Dollars is unique in that they were all purchased from the various Commissions and have remained in the family since their purchase. Rarely does one have the opportunity to offer such "fresh" numismatic material. For all intents and purposes, these coins have not seen the light of day in over 50 years! We have had the pleasure of offering other items from the same family in some of our sales such as the Hudsons in Auction '88, and the Yorks in April/May. All of the coins have magnificent toning that only time can create and they will be so described. Quite naturally virtually every coin is either choice or gem.

It is a privilege and a pleasure to now offer these coins to the collecting fraternity.

Property of Various Consignors

A SMALL COLLECTION OF U. S. PROOF COINS

The provenance of this collection is very interesting. These Proofs were selected from the collection of Philip Hill. Mr. Hill began acquiring his collection from the Mint as a young man living in New York City. He was a native of that city. He migrated to Nashville, Tennessee and established a successful mercantile business then and continued his collection until 1907. About 1909 the collection was boxed and passed on to his daughter. The box was opened in 1970 and the contents distributed along with other items. We take great pride in offering the items to the collecting public.

AN EXTRAORDINARY GROUP OF BOXED PANAMA-PACIFIC COINS

COMPLETE SET OF 1915 PANAMA-PACIFIC COINS IN ORIGINAL BOX OF ISSUE

Lot No. 2089
(Photo Reduced)

2089 **Complete 1915 Panama-Pacific Set,** consisting of **two $50.00 Gold pieces,** round and octagonal; **$2.50** and **$1.00** in gold; and the **Half Dollar** in silver. Mounted in the **original box of issue. Brilliant Uncirculated,** the round $50.00 lightly cleaned, the octagonal $50.00 with small bagmarks on the cheek and adjacent areas. The Quarter Eagle and Gold Dollar are choice and well struck, with frosty lustre. The Half Dollar has rose and steel iridescent toning.

The Panama-Pacific Exposition was held in San Francisco from February 20th to December 4th, 1915, in celebration of the construction and opening of the Panama Canal. It was one of the largest expositions ever held in the United States and attracted world-wide attention. Forty-four States, United States Territories, and thirty-six foreign nations were represented. The coins struck in connection with the Exposition are among the most interesting of the United States Commemorative issues.

These were the only Fifty Dollar Gold coins to be issued under the authority of the United States Government. Approximately 1,500 sets were struck, although only 484 sets were sold at the Exposition. The balance of the issue was remelted. We doubt if more than half of those sold still exist, making it quite rare. This is probably the most popular and sought after set of coins on the market today. These sets were originally sold for $200.00 back in 1915, and have steadily increased in value.

It is mounted in the original box of issue with the original descriptive card. *(SEE COLOR PLATE)*

STACK'S GRADING POLICY

For Mint State or Uncirculated Coins

Stack's believes that adjectival grading is the best way to describe a coin. However, as numerical grading has become part of the grading vocabulary, Stack's wishes to define the adjectival and numerical grading as we interpret it in this catalogue.

Comparative Grading Language

Brilliant Uncirculated is at least MS-60
Choice Brilliant Uncirculated is at least MS-63
Gem Brilliant Uncirculated is at least MS-65

It should be understood by all that the grading is a subject art. See our Terms of Sale for a full explanation.
